UNIVERSITY PATHWAYS WITH INTO

INTO centres have a range of programmes to suit students from many different educational backgrounds.

In the UK, most international students will require an International Foundation (or the second year of a degree in Scotland) which leads to the first year of an undergraduate degree, although some students may qualify to join International Year One which leads to the second year of an undergraduate degree.

In the US, students can select from Pathway programme admission or direct-entry admission. Admission to a Pathway programme allows students to start their undergraduate degree with a slightly lower GPA and TOEFL/IELTS score, yet still earn university credit toward a degree and receive a higher level of support and academic preparation from INTO.

There are also courses suitable for students who need to prepare for Master’s degrees in the UK or US, details on request.

Most INTO Pathway programmes have two or three start dates per year, all of which lead directly on to further study at the university or college of choice.

Pathway Programme Content

To prepare students to succeed in further undergraduate study, these programmes combine:

• Intensive language study
• Academic skills development
• Academic coursework

INTO’s partner network of leading universities offer more than 1,200 different degrees across all fields of study.

ENTRY REQUIREMENTS

The student’s academic transcripts (incl. translations) will be assessed at the time of application.
